

Confused about buying a franchise?

Attend a local seminar for independent advice

Have you ever thought you'd like to buy your own franchise but found it difficult finding the right one?

We know from our experience over many years that people have wasted thousands of pounds of their hard earned money on the wrong franchise. In many cases they found the support and income they had expected was not nearly enough.

Exhibitions and magazines can swamp you with information without helping you tell the good from the bad. So...

If you want to be your own boss earning good money in a job you really enjoy within weeks... then you could achieve all that by buying the right franchise. But franchises vary enormously and we regularly get people coming to us for help too late - after they've bought a turkey.

We've decided to run this seminar to help people make a good choice. Our aim is to help good prospective franchisee and good franchisors find each other.

When you attend you get the following...

- ✓ A clear and simple explanation of how franchising works
- ✓ What to look for when buying a franchise so you obtain a sound business that's right for you - identify winners and avoid losers
- ✓ A guide to the obstacles you may encounter and how to overcome them (financial, legal, current circumstances)
- ✓ A free assessment of what's right for you and what's available
- ✓ A chance to talk to people who've been successful at it

As an independent company we can help you to make the right choices so that being your own boss, aiming for high earnings and doing something you really enjoy can become a reality.

“After I spoke to Fracture I bought a better franchise for less that paid me more!”

To book your place call 01923 892992 or email FranchiseDevelopment@fracture.co.uk
There is an administration fee of £15.

We are independent franchising specialists providing a full range of services to franchisors and franchisees
